

cutting

My Dahle. Since 1930.

DAHLE[®]

For your success.

With our high-performance products we make it faster and easier for you to get the results you are looking for – that's our promise. Our high-quality trimming and cutting products are indispensable assistants in all cutting work –

whether in the office, at home, for handicraft or making things at school and playschool. We combine precision with maximum safety, ease of use and options for tailoring our products to suit any specific application.

Valid from 05/2019

leading the way

My Dahle.

Use

Craft & entry-level:
Easy and safe cutting precision

Professional use:
Working efficiency with cutting precision

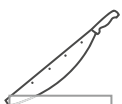

Commercial use:
Always ready for top performance

The basic pictograms

Circular blade enclosed in plastic cutting head
for maximum safety

Transparent clamping ruler
with integrated finger guard

Blade guard
Transparent or metal blade guard for
cutting safety

Features

Automatic safety guard
for reliable protection and unobstructed view
of the cutting process

Material blade for all sorts of applications

Precision laser beam line indicator
for professional cutting results

Can be locked to prevent unauthorised use

Quality promise to meet the exacting demands
placed on our products

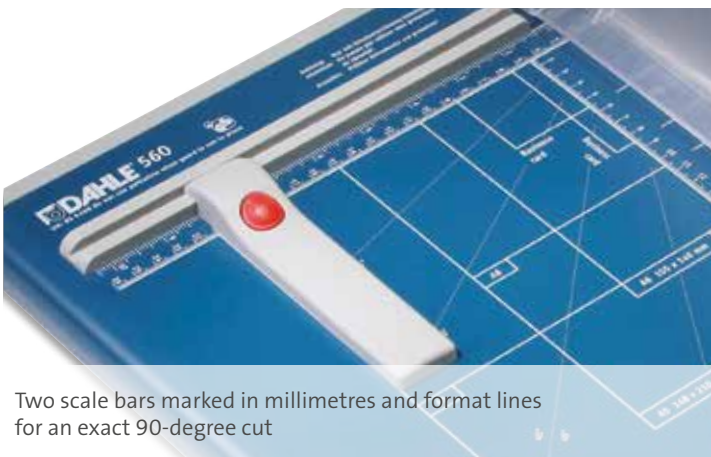

precise

My Dahle.

 **DAHLE**[®]

Perfected automatic safety guard for reliable protection and unobstructed view of the cutting edge (561, 562, 564, 565, 867, 868, 567, 597, 569, 599)

Two scale bars marked in millimetres and format lines for an exact 90-degree cut

High-quality blades made of Solingen steel for long-lasting cutting quality

Precise & safe:
The right model for any need

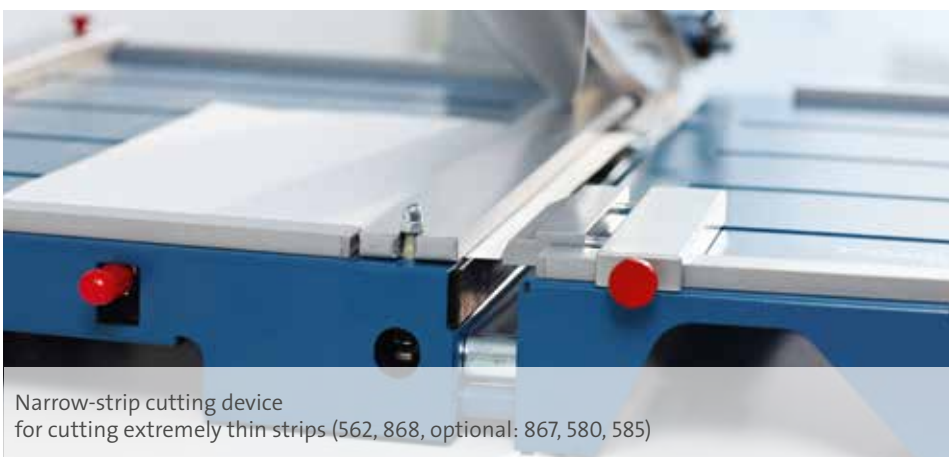

Precision laser beam line indicator guarantees professional cutting results (562, 564, 868, optional: 867, 580, 585)

Automatic, de-selectable clamping makes easy work of cutting pressure-sensitive materials

Pull-out/extendible front stop up to 210 mm for cutting strips of equal width

Narrow-strip cutting device for cutting extremely thin strips (562, 868, optional: 867, 580, 585)

Lockable D-bar clamp suitable for cutting pressure-sensitive materials

DAHLE 502

- Compact, entry-level guillotine for hobby use
- Sturdy solid metal table with rounded edges and non-slip rubber feet
- Practical recessed grips for safe handling
- Practical format lines on the table
- Ergonomically shaped handle
- Upper steel blade
- Lower steel blade
- Manual D-clamp bar
- Two scale bars with mm scale

Product name	Cutting length in mm	DIN	Cutting capacity in mm	Cutting capacity A4 80 g/sm sheets ¹	Table size, external dimensions in mm	Net weight in kg
502	320	A4	0.8	8	420 x 175	1.5

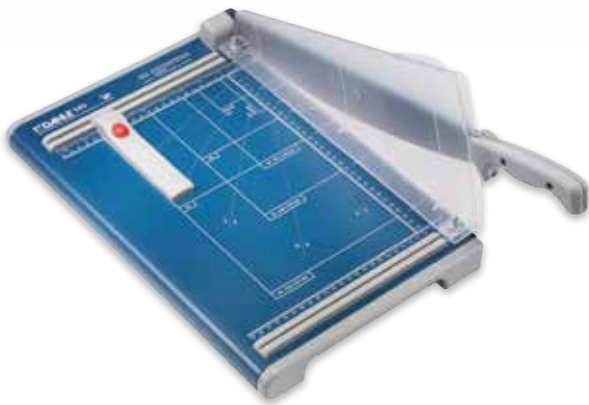

DAHLE 533, 534

- Compact, entry-level guillotine for hobby use
- Sturdy solid metal table with rounded edges and non-slip rubber feet
- Practical recessed grips for safe handling
- Practical format lines on the table
- Ergonomically shaped handle
- Screw-mounted, flat-ground upper blade
- Ground lower blade
- High-quality blades made of Solingen steel
- Sturdy, solid-steel blade holder
- Manual D-clamp bar with integrated finger guard
- Two scale bars with mm scale
- Adjustable backstop

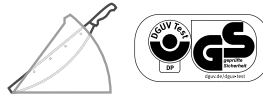

Product name	Cutting length in mm	DIN	Cutting capacity in mm	Cutting capacity A4 80 g/sm sheets ¹	Table size, external dimensions in mm	Net weight in kg
533	340	A4	1.5	15	450 x 285	3.9
534	460	A3	1.5	15	575 x 285	4.9

¹The indicated sheet capacity for cutting machines is due to standard paper weight of 80gsm but is still subject to texture, quality and state of paper. All of such information is based on the general formula 10 sheets = 1mm stack height and may only be used as an aid to orientation for the selection of the cutting machine.

Product name	Cutting length in mm	DIN	Cutting capacity in mm	Cutting capacity A4 80 g/sm sheets ¹	Table size, external dimensions in mm	Net weight in kg	Features
567	550	A3	3,5	35	600 x 365	14,7	Paper blade
597	550	A3	3,5	-	600 x 365	14,7	Material blade ²

¹The indicated sheet capacity for cutting machines is due to standard paper weight of 80gsm but is still subject to texture, quality and state of paper. All of such information is based on the general formula 10 sheets = 1mm stack height and may only be used as an aid to orientation for the selection of the cutting machine.

²Material blades are suitable for a huge range of different materials and consist of a different edge grinding compared to paper blades. The mentioned cutting capacity may not fully be utilized with all of the eligible materials. Especially when cutting paper with a material blade, the indicated height capacity must not be fully utilized. In this case, we recommend the usage of a cutting machine with paper blade.

DAHLE 517, 587

Creative & reliable:
For precision, burr-free and large-format cutting work

Practical format lines facilitate alignment of the item being cut

Push-on cutting-head cover for maximum safety (505)

Creative set 960 with three cutting heads for zig-zag cut, perforation and deckle-edge cut (507)

505

-  Straight cut
-  Wavy cut
-  Deckle-edge cut
-  Perforation
-  Folds

Circular blade and four additional easy-to-change cassettes for straight cuts, wavy and deckle-edge cuts as well as perforation and folding make the 505 rotary trimmer a creative and talented all-rounder

Enclosed cutting head
for safe trimmer use

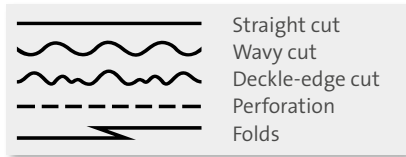

Automatic clamping
on the cutting line for holding item
being cut perfectly in place

Sturdy stand with waste tray
for optimum working height
(accessory for: 446, 448, 472, 556, 558)

Adjustable backstop
for quickly finding the right format

- Cutting head easy to changel
- Complete with stand and practical waste tray

Product name	Cutting length in mm	DIN	Cutting capacity in mm	Cutting capacity A4 80 g/sm sheets ¹	Table size, external dimensions in mm	Net weight in kg
00446-20320	920	A1	2.5	25	1,120 x 384	24.4
00448-20321	1300	A0	2.0	20	1,500 x 384	30.7

¹The indicated sheet capacity for cutting machines is due to standard paper weight of 80gsm but is still subject to texture, quality and state of paper. All of such information is based on the general formula 10 sheets = 1mm stack height and may only be used as an aid to orientation for the selection of the cutting machine.

DAHLE 472

- User-friendly trimmer for professional use
- Sturdy solid metal table
- Practical format lines on the table
- Ground circular blade
- Ground lower blade
- High-quality blades in hardened steel
- Circular blade enclosed in plastic cutting head
- Automatic clamping on the cutting line
- Two scale bars with mm scale
- Adjustable backstop
- Cutting head easy to change

DAHLE®

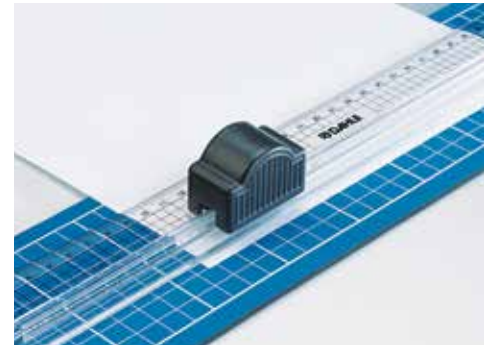

Sharp & strong:
versatile tools for perfect cutting results

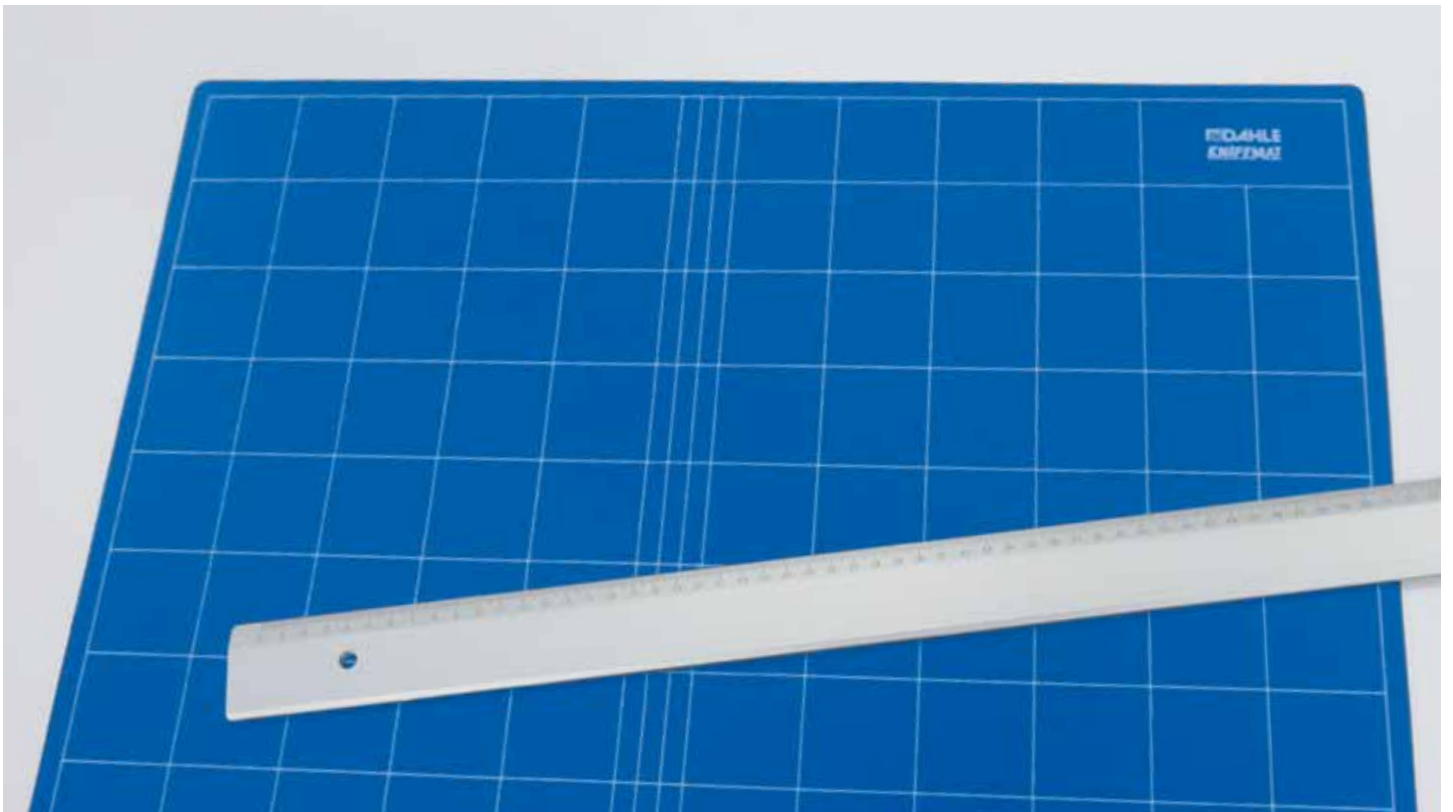

Comprehensive cutting set
for precision cutting

Customised creative set
for zig-zag cut and perforation
for paper cutters 350 and 360

Firm cutting mat
to provide a safe surface for cutting on

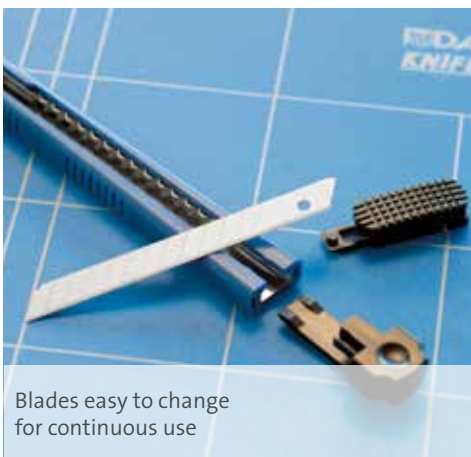

High-quality aluminium cutting ruler
for long service life

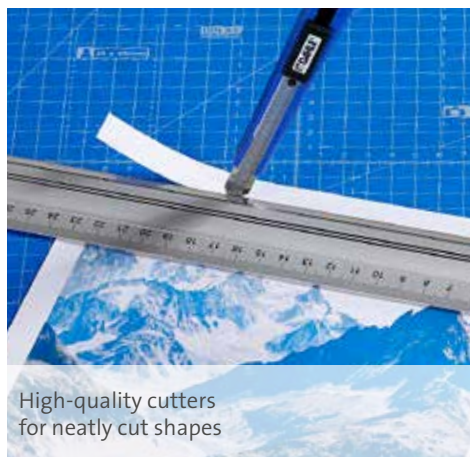

Paper cutters, cutters, scalpels and accessories

Sturdy cutting mat with self-healing surface and guide lines provides a safe and clearly structured cutting base

Blades easy to change for continuous use

High-quality cutters for neatly cut shapes

Various scalpel blades are available for many different areas of use

DAHLE cutting mat and ruler with integrated cutter

- Firm cutting mat and ruler with integrated cutter
- Practical circular blade in the plastic cutting head
- Manual clamping
- 362: optionally available creative set for zig-zag cut and perforation

Product name	Type	Cutting length in mm	DIN	Cutting capacity in mm	Cutting capacity A4 80 g/sm sheets	Table size, external dimensions in mm	Net weight in kg

10731	Replacement blade	50	10860, 10870
10741	Replacement blade	50	10875

DAHLE Precision disposable scalpel

- Disposable scalpel with integral blade

Product name	Type	Blade
10611	Disposable scalpel	No. 10
10612	Disposable scalpel	No. 11
10613	Disposable scalpel	No. 15

Paper cutters, cutters, scalpels and accessories

An exact blade guidance is guaranteed by the metal core, the locking mechanism locks the blade in the selected position

ABS plastic housing with integrated break-off device in the grip section

Easy blade exchange for constant use

With its ergonomically shaped rubberized grip section, the cutter provides a good and secure grip

Practical micro-serration reliably grips the material being cut (50038)

Screw-fastened joint with nylon retainer for optimum tension and permanent cutting precision

Precision-ground scissor blades for cutting perfection through to the tip

Rubber lined soft-touch handle for continued comfort while cutting

High-quality & easy to use:
Indispensable helpers at any workplace, in kindergarden or school

Suitable scissors for children aged between 3 and 6 years are provided with rounded scissor blades – for children aged between 7 and 14 years with pointed scissor blades

The Try-Me blister allows the scissors to be tested directly on the shelf

Rounded scissor blade with centimetre graduation for cutting precision

Scissor handles in non-breakable ABS plastic for cutting comfort

PROFESSIONAL scissors

DAHLE PROFESSIONAL scissors

- Professional scissors for the most exacting demands on quality and durability
- High-quality, hardened stainless steel (56 Rockwell)
- Precision-ground scissor blades for exact cutting results
